## EMC Testing Labs Directory

**Cost Per Click (CPC) advertising** is a great way to drive targeted traffic to your company website. You are only charged when a user clicks the link in the directory to visit your website. This is very targeted, as users only visit **EMC-directory.com** when they are looking for an EMC Testing lab. When a user search for a EMC testing lab in your location, your company will be shown higher in the list with a link to your website.

**Price: \$2/Click (\$500 Minimum) - Once you run out of balance you can top up.**

**Note:** As an advertiser your company will show up higher in list of companies - with a link to your website.

## Lead Generation for EMC Testing Labs

The **Lead Generation Program** on EMC-Directory.com has been designed to get you EMC Testing inquiries from real users . We have created a Quotation Form which users fill out to request a quotation from multiple companies. The EMC Directory team will route relevant leads to your company.

**Cost: \$50/Lead (\$500 Minimum - Your balance keeps deducting as the leads are generated)**

**Targeting:** You can choose from which countries you would like to get quotations.

## EMC Testing Equipment

The parametric search tools on **EMC Directory** have been specially designed for the EMC Testing industry. Users no longer need to go to individual manufacturer websites to find products that they need. Once they enter their requirement, our search tool shows them all matching products. They can view product specs, download datasheets, compare products and request quotations.

**For Example**, in the EMC/EMI filters Category, users can search for the relevant filters by specifying the voltage rating, current rating and power line type of a filter. We have over 5,000 EMC/EMI filters from more than 20 manufacturers listed in our database. We have over 30 such categories.

### EMC / EMI Filters

EMC/EMI Filters are the devices which are used for protection of sensitive electronics from radiation emitted by other electrical/electronics devices. An EMC/EMI filter remove unwanted current conducting through wire or cable that can interfere with signal and power lines and let desired signal or pass without any restriction. EMC/EMI Filters from the leading manufacturers are listed below. Use the parametric search tools to narrow down on products by Type, Voltage ratings, Current ratings and various other parameters. View product details, download datasheets and get quotes on EMC/EMI Filters that you need.

## White Paper Lead Generation & Promotion Program

EMC Directory’s White Paper Sponsorship is a highly effective program for companies interested in generating and following up on pre-qualified leads. There are over 250 White Papers, Articles and Application Notes listed in this section. Sponsorship is the best way to ensure that your content stands out and is seen by users.

### How it Works:

All relevant White Papers provided are added to the site and made searchable to users.

**The benefit of a paid sponsorship is that your paper(s) will receive significant visibility across the entire EMC Directory network (including everything RF) – The papers will be promoted on the home page, in the White Paper section and to more than 5,000 subscribers of our weekly Newsletter.**

You can promote one or multiple white papers which will show on EMC Directory. Leads from the program will be shared with you each month. This will include leads from the promoted White Papers as well as any other papers you have listed on the site.

### Performance Guaranteed:

We will guarantee a minimum of 50 leads within the promotion/sponsorship period. We will continue to promote the white paper till you receive a minimum of 50 leads.

### **White Paper Program: \$3,500 for 50 Leads**

**Note:** There is no limit to the number of white papers that you can list on EMC Directory. The lead generation program lets you promote up to 10 different white papers at a time.
